Quels ont été les points forts de votre expérience d'apprentissage dans cet enseignement ? / What were the strongest aspects of your learning experience in this course?

18	Professeure très à l'écoute de ses étudiants, dynamique. Les retours sur nos travaux clairs et précis, nous ont permis de bien progresser tout au long du semestre. Très investie, elle prenait le temps de répondre à toutes nos questions (également concernant nos projets professionnels) et partageait son expérience. Un grand merci pour ce semestre !
19	Very good teaching!
20	.
21	I really liked making us go to the board to answer the questions, as I then felt more invested in the class than I would have been otherwise. The teacher was also very kind and made me feel I could ask every question I had.
22	Very helpful training to understand the models.
23	Good teacher
24	,
25	.

Comment pourrait-on enrichir l'expérience d'apprentissage dans cet enseignement ? / How could the learning experience improve in this course?

1	good
2	Consider doing a short introduction to Dynare and the process of solving the models that we are studying by numerical methods. This way we better understand how the models we are learning are applied for research and policy analysis.
3	NA
4	Good
5	Maybe including a little bit more emphasis on the intuition of the models may have been helpful but I felt like the point of the p-sets compared to the presentation and exam was to get to grips with the maths and for that it was very good.
6	Reduce the pressure put on students to present their answers in front of the class.
7	Nice
8	It would have been useful to have more references and materials uploaded on Moodle, which almost exclusively contained slides.
9	.
10	Maybe less math derivations in the problem set and more modelling skills like in the last problem set but easier
11	Une préparation plus en amont aux attentes de l'examen final aurait été très utile.
12	Not much to say; Naomi was very communicative with the class and relatively flexible with our concerns and such.
13	Dealing even more with technical issues, but it is just improvement on something already good.
14	Perfect

Comment pourrait-on enrichir l'expérience d'apprentissage dans cet enseignement ? / How could the learning experience improve in this course?

15	.
16	That's great! I love Naomi!
17	Il aurait été bénéfique d'avoir un peu plus de corrections dans nos travaux.
18	Rien à améliorer, c'est parfait !
19	-
20	.
21	No comment
22	It was excellent.
23	More exercises
24	,
25	.
